WELCOME TO CARS
Center for Automotive Research at Stanford

Stanford’s Automotive Affiliates Program
CARS is the interdisciplinary automotive affiliates program at Stanford University. The vision of CARS is to create a community of faculty and students from a range of disciplines at Stanford with leading industry researchers to radically re-envision the automobile for unprecedented levels of safety, performance, sustainability, and enjoyment. Our mission is to discover, build, and deploy the critical ideas and innovations for the next generation of cars and drivers.

- FOCUS WORKSHOPS
- THE FUTURE OF THE AUTOMOBILE - SEMINAR CLASS
- ASSISTANCE TO ESTABLISH STANFORD CONTACTS
- EXPERT DISCUSSIONS & SYMPOSIAUS
- MEMBERS ONLY AUTOMOTIVE NEWS
- ACCESS TO FACILITIES & INFRASTRUCTURE

Automotive Research with a Flavor of Silicon Valley
The three founding labs of CARS conduct the main research in the automotive field at Stanford. The result is a strong technology focus on controls, automation, and communication. CARS is an integral part of the network at Stanford University and maintains strong relationships with the Graduate School of Business, School of Law, and other research centers on campus. This interdisciplinary approach makes Stanford Automotive unique in automotive research.
